PROFESSIONAL SUMMARY

Product Designer and Frontend Developer / Frontend Engineer (React.js) with 2 years of experience across the full product design and development lifecycle - user research, wireframing, prototyping, UI/UX design, design systems, and scalable frontend engineering. Skilled in building responsive, accessible, enterprise SaaS applications using React.js, TypeScript, Redux, and REST APIs, alongside user-centered design practices in Figma. Contributed to 14+ enterprise applications across Healthcare, ERP, CRM, Inventory, Warranty, License, and Timesheet Management domains, designing and developing 300+ responsive UI screens. Experienced in Agile/Scrum environments, cross-functional collaboration, component-driven development, and end-to-end design-to-development handoff.

CORE SKILLS

UI/UX & Product Design: User-Centered Design (UCD), User Research, User Journey Mapping, Information Architecture, User Flow Design, Wireframing (Lo-Fi & Hi-Fi), Interactive Prototyping, Design Systems, Design Tokens, Responsive & Mobile-First Design, Accessibility (WCAG), Usability Testing, Heuristic Evaluation, Design Thinking, Dashboard Design, SaaS Product Design

Frontend Development: React.js (ReactJS), JavaScript (ES6+), TypeScript, React Hooks, React Router, Redux, State Management, HTML5, CSS3, REST API Integration, Axios, Component-Driven Development, Reusable UI Components, Cross-Browser Compatibility, Performance Optimization

UI Frameworks & Styling: Material UI (MUI), Bootstrap, Tailwind CSS, CSS Grid & Flexbox

Data Visualization: Apache ECharts, Recharts, Nivo Charts

Tools & Methodologies: Figma, FigJam, Sketch, Git, GitHub, Vite, Webpack, npm, Agile/Scrum, Design-to-Development Handoff, Cross-Functional Collaboration, Web Application Development

Languages: English, Tamil

WORK EXPERIENCE - 2 YEARS

UI/UX Designer - Tiara Software Consulting

Designed enterprise SaaS applications across web and mobile platforms for multiple business domains, delivering intuitive, user-centric interfaces using a user-centered design (UCD) approach.

- Led user research, user journey mapping, and information architecture to translate complex business requirements into clear, scalable user experiences.
- Created Lo-Fi and Hi-Fi wireframes and interactive prototypes in Figma, iterating designs based on stakeholder feedback and usability testing.
- Built and maintained scalable design systems and design tokens to ensure visual and functional consistency across 14+ enterprise applications.
- Applied accessibility (WCAG) standards and mobile-first, responsive design principles across dashboard and SaaS product design work.
- Collaborated closely with cross-functional engineering, product, and QA teams in Agile/Scrum sprints to ship features end-to-end.

Frontend Developer - Tiara Software Consulting

- Developed reusable, component-driven UI using React.js, TypeScript, Material UI, Tailwind CSS, and Bootstrap, maintaining design consistency at scale.
- Built and integrated REST APIs using Axios to power dynamic, data-driven dashboards and workflow management modules.
- Implemented client-side routing and state management using React Router and Redux for enterprise-grade SaaS applications.
- Designed and developed 300+ responsive, cross-browser compatible UI screens across Healthcare, ERP, CRM, Inventory, Warranty, and License Management applications.
- Built analytics and reporting interfaces using Apache ECharts, Recharts, and Nivo Charts, improving data visibility for end users.
- Used Git/GitHub for version control and Vite/Webpack/npm for build tooling within a collaborative, Agile development workflow.

EDUCATION

Bachelor of Science in Computer Science Jun 2020 – Jun 2023

Kovai Kalaimagal College of Arts & Science

PROJECTS

Red Fort Resort - Luxury Resort & (Siruvani Hills, Coimbatore)

Live Site: www.redfortresort.com

- Independently designed and developed the marketing and booking website for Red Fort Resort, a luxury heritage retreat with 16 premium rooms in the Siruvani Hills, showcasing rooms, destination weddings, corporate retreats, fine dining, and nature experiences.
- Built a responsive, SEO-optimized, mobile-first UI using React.js, JavaScript (ES6+), HTML5, and CSS3, with an image gallery, enquiry/booking flow, and structured metadata for local search visibility.

Thalam 360 – Photography Studio CRM & Management Platform

Live Site: www.thalam360.com

- Designed and developed a responsive studio-management platform using React.js, TypeScript and Tailwind CSS, covering calendars, enquiry leads, quotations and expense tracking.
- Developed data and workflow interfaces for studio operations, including automated invoice generation, payment tracking and WhatsApp-linked sharing flows.
- Contributed to application workflows involving PostgreSQL relational schemas, custom SQL queries, JSON-based reporting and role-aware operations.

ADDITIONAL PROFESSIONAL EXPERIENCE

Cinematographer - IPL Broadcasting Team, Isha Foundation Coimbatore, Tamil Nadu

- Covered visual production for major events such as Mahashivratri and Gramotsavam as part of the IPL broadcasting team.
- Shot and produced diverse content formats including video series, songs, reels, promotional videos, creative shoots, and vlogs.
- Captured interview segments, conducting and recording conversations with a wide range of people as part of event and content production.
- Applied strong composition, framing, lighting, and visual storytelling skills that translate directly into UI/UX visual hierarchy and audience-attention design.

Training Instructor

- Conducted training sessions and communicated technical concepts to learners with different levels of understanding.

Video Editor

- Edited and produced video content using structured storytelling, sequencing, and visual editing techniques.
